github.com/Preet-Patel-Workplace

Summary

Computer Science diploma student at the University of Regina with hands-on experience designing, developing, testing, and supporting web-based applications. Strong foundation in Python, JavaScript, HTML, CSS, and data structures, with practical experience integrating APIs, handling asynchronous data, and using Git for version control. Proven problem-solver with experience troubleshooting technical issues and collaborating in team-oriented environments. Seeking a Software Developer Student / Co-op role to contribute to real-world systems in an agile setting.

Technical Skills

- **Programming Languages:** Python, JavaScript, HTML5, CSS3
- **Concepts:** Object-Oriented Programming, Data Structures, Software Development Lifecycle
- **Web & Integration:** Front-end development, API integration, asynchronous programming, client-side validation, accessibility
- **Tools & Practices:** Git (version control), debugging, testing, technical documentation
- **Professional Skills:** Problem-solving, communication, collaboration, time management

Certifications   github.com/Preet-Patel-Workplace/Ceritificates

- **Introduction to Cloud Computing**
- **Introduction to Software Engineering**

Projects

LeetMetric — LeetCode Analytics Dashboard   *HTML, CSS, JavaScript, GraphQL*
Live Demo: preet-patel-workplace.github.io/leetmetric

- Built a LeetCode-style analytics dashboard to visualize problem-solving statistics by difficulty using live GraphQL data
- Integrated asynchronous data fetching with error handling, responsive UI design, animated progress indicators, and accessibility-friendly client-side validation

Responsive Login UI   *HTML, CSS, JavaScript*
Live Demo: preet-patel-workplace.github.io/responsive-web-project | GitHub: github.com/Preet-Patel-Workplace/responsive-web-project

- Designed and developed a responsive front-end interface following modern UI and accessibility principles
- Implemented client-side functionality using JavaScript and tested UI behavior across devices

StudySync Educational Landing Page *HTML, CSS*
Live Demo: preet-patel-workplace.github.io/studysync-landing-page | GitHub: github.com/Preet-Patel-Workplace/studysync-landing-page

– Built a multi-section responsive web layout using Flexbox, Grid, and media queries
– Maintained clean, readable HTML and CSS while debugging layout and styling issues

Education

Diploma in Computer Science 2024 – Present
University of Regina, Regina, SK

– Relevant Coursework: Programming & Problem Solving, Data Structures & Abstractions, Object-Oriented Design, Web & Database Programming, Intro to Python Programming, Digital Systems

Experience

Front-End IT Support Assistant *Vadodara, India*
Kanan International

– Provided technical support by troubleshooting hardware, software, and connectivity issues
– Assisted with setup and configuration of computers, printers, and office workstations
– Followed structured procedures and communicated solutions clearly to users

Front End Associate (Part-Time) *Regina, SK*
Real Canadian Superstore

– Delivered customer-facing support using computer-based POS systems in a high-volume environment
– Resolved issues by analyzing problems and applying appropriate solutions under time constraints
– Demonstrated reliability, attention to detail, and adherence to operational procedures
