SUMMARY

Computer Science student at the University of Regina with production-grade experience building and deploying full-stack web applications using JavaScript, React.js, Python, PHP, SQL, GraphQL, and REST APIs. Proven ability to design scalable systems, integrate data pipelines, and deliver clean, well-documented code across front-end and back-end environments. Holds 6 IBM certifications demonstrating continuous learning across software engineering, cloud computing, and full-stack development. A proactive, detail-oriented problem-solver who thrives in collaborative, fast-paced teams — targeting Software Development, QA Automation, or Systems Analysis roles.

SKILLS

Languages: JavaScript (ES6+), Python, PHP, SQL, C/C++, HTML5, CSS3, MIPS Assembly

Frameworks & Libraries: React.js, Tailwind CSS, GraphQL, Google Apps Script

APIs & Backend: REST APIs, GraphQL API Integration, Asynchronous Programming, JSON, Database Management Systems (DBMS)

Tools & DevOps: Git, GitHub, VS Code, Debugging, Testing, Technical Documentation, Linux/*nix, Agile, SDLC

Professional: Problem-Solving, Attention to Detail, Communication, Collaboration, Time Management, Adaptability

CERTIFICATIONS

IBM Full Stack Software Developer | IBM via Coursera | In Progress

Developing Front-End Apps with React | IBM via Coursera | May 2026

Getting Started with Git and GitHub | IBM via Coursera | May 2026

Introduction to HTML, CSS & JavaScript | IBM via Coursera | Apr 2026

Introduction to Cloud Computing | IBM via Coursera | Feb 2026

Introduction to Software Engineering | IBM via Coursera | Jan 2026

PROJECTS

LeetMetric - LeetCode Analytics Dashboard | JavaScript React GraphQL REST API HTML CSS | <https://leetmetric-two.vercel.app>

- **Engineered a real-time analytics dashboard** visualising 3 difficulty tiers of LeetCode data via live GraphQL queries, achieving sub-2-second load times and zero UI crashes under simulated network failures.
- **Architected a fault-tolerant async data pipeline** with full error-boundary handling and WCAG-aligned accessibility compliance, improving usability for a global developer audience.

Responsive Checkout Interface | JavaScript HTML Tailwind CSS | <https://razorpay-clone-mu-lake.vercel.app>

- **Delivered a pixel-accurate production-style web interface** across 5+ responsive breakpoints using Tailwind's utility-first framework, cutting custom CSS volume by ~70% and layout build time by 40%.

EXPERIENCE

Front End Associate (Part-Time) - Real Canadian Superstore | Regina, SK

Sep 2025 - Present

- **Processed 100+ customer transactions per shift** on a high-volume POS system with 100% cash-handling accuracy, demonstrating reliability and precision under sustained operational pressure.
- **Maintained perfect adherence** to store SOPs and data-handling protocols across every shift, contributing to zero discrepancy incidents since onboarding.
- **Collaborated with cross-functional team members** to resolve operational issues promptly, escalating concerns and following up on action items to ensure timely resolution.

EDUCATION

Diploma of Computer Science | University of Regina

2024 - Dec 2026

Full-time enrollment | Coursework in data structures, algorithms, software engineering, databases, and web development.
