Projects

LeetMetric — LeetCode Analytics Dashboard | *HTML, CSS, JavaScript, GraphQL*

- **Live Demo:** preet-patel-workplace.github.io/leetmetric
- Built a dashboard to visualize LeetCode statistics by difficulty using live GraphQL data.
- Implemented asynchronous data fetching with error handling and responsive UI design.
- Added animated progress indicators and accessibility-friendly client-side validation.

Razorpay Clone — Tailwind CSS Implementation | *HTML, Tailwind CSS, JavaScript*

- **Live Demo:** preet-patel-workplace.github.io/razorpay-clone
- Developed a production-style payment UI leveraging Tailwind's utility-first framework for scalable styling.
- Structured responsive layouts using mobile-first breakpoints and component-based UI design.
- Improved frontend development workflow by minimizing custom CSS and optimizing layout efficiency.

Responsive Login UI | *HTML, CSS, JavaScript*

- **Live Demo:** github.com/Preet-Patel-Workplace/responsive-web-project
- Designed and developed a responsive interface following modern UI and accessibility principles.
- Implemented client-side functionality using JavaScript and tested across devices.

Experience

Front End Associate (Part-Time)

Real Canadian Superstore

Regina, SK

- Delivered customer support using POS systems in a high-volume environment.
- Resolved issues efficiently under time constraints.
- Demonstrated reliability, attention to detail, and adherence to procedures.

Front-End IT Support Assistant

Kanan International

Vadodara, India

- Provided technical support troubleshooting hardware, software, and connectivity issues.
- Assisted with setup and configuration of computers, printers, and workstations.
- Followed structured procedures and clearly communicated solutions to users.
